DIAMOND DOTZ®
Freestyle™

Cookie Cutter

Finished Size: About 29 x 29cm DOTZ® (11.4in x 11.4in)
Skill Level: Intermediate

Other supplies:

Dotz® Stick adhesive
Dotz® gems, as per color key
Stylus, Wax and Craft Tray
Round paintbrush, fine
Flat paintbrush, medium

Tips:

1. To print the design chart on the next page, go to the print counter at your local print or office supply store. The self-service counters generally hold ordinary copy paper only. This project requires a sturdy tabloid-size paper.

2. Request an Actual size or 100% print – do NOT Fit to Page.

3. Request the chart be centred on the paper. Side edges may be slightly trimmed, but this won't affect the chart itself.

COOKIE CUTTER

To complete this diamond painting, refer to instructions (below), download and print the actual size chart on the next page

Instructions

STEP 1 Download the actual size design chart on the following page to your computer or a USB stick. Head to your local print or office supply store and print the charted design onto sturdy uncoated tabloid paper.

NOTE: If you download the actual size chart to your computer, email it to yourself, go to the print counter and ask for it to be printed on 11 x 17in sturdy paper. Always choose 'Actual size' or 100% in the print dialog, NOT 'Fit to page'.

STEP 2 Brush 2 coats of Dotz® Stick onto areas of the design to be dotted (distinguided by diamond symbols). Let each coat dry clear and tacky before proceeding.

STEP 3 Diamond paint the charted design as follows:

3A Choose a symbol on the photocopied design chart.

3B Find that symbol on the Color Key to see which diamond color it matches.

3C Load your stylus with wax. Pick up the diamond of that color.

3D Press diamond onto the design wherever that symbol appears.

3E Repeat Steps 3A-3D for all symbols/diamond colors.

STEP 4 Mount or frame the dotted design, as desired.
